Kediri, East Java

Hi, I'm Anas Khalif, I'm pursuing my Associate's Degree at Brawijaya University Majoring in Information Technology. Right now I am in the semester 3. During my education at Brawijaya, I am very interested to the Pemrograman web. I have several freelance experiences, my last freelance was at Dinas Peternakan Kab.Batu Service as a full stack web developer. Within 4 months, I succeeded in building an information system website for animal data management, dairy cow milk management and financial management by considering the industry's problems.

Work Experiences

Dinas Peternakan - Batu, East Java <i>Full Stack Web Developer</i> <ul style="list-style-type: none">Problems with manual data management. We build an information system website for data management using technology PHP Codelgniter, Bootstrap.Create a calculation feature for dairy cow milk management over a certain period.Create financial management features.Create a company profile in collaboration with the UI/UX design team	Mar 2024 - Jun 2024
